

MINI Connected Services - General Terms and Conditions

1. MINI Connected Services and MINI Connected Agreement

1.1 BMW Slovenská republika s.r.o., having its registered office at Karadžičova 8, 821 08 Bratislava, Slovak Republic, Company ID: 51 112 736, registered in the Commercial Register maintained by District Court Bratislava I, Section Sro, Insert 122411/B (hereinafter “MINI”), shall provide the customer with vehicle-related informational and support services (hereinafter “Services”) known as “MINI Connected,” as defined by these General commercial Terms and Conditions of usage (hereinafter „commercial terms“).

1.2 The current version of these General Terms and Conditions can be reviewed, saved and printed at any time at www.mini.sk. Any changes to these General Terms and Conditions shall be published no later than six weeks before their intended effective date, and communicated to the customer to the extent that MINI is able to contact the customer. If the customer has agreed an electronic communication channel with MINI (e.g. via the MINI Connected customer portal “My MINI Connected”), the changes can also be reported via this channel. The General Terms and Conditions shall become part of the Agreement as long as the customer does not object before the planned date when the changes are to take effect.

1.3 In order to provide the customer with the Services, a MINI Connected agreement must be concluded between the customer and MINI. The MINI Connected agreement represents the framework agreement between MINI and the customer; by itself, without booking individual Services, it shall not constitute an acceptance or payment obligation for the Customer. However, based on this framework agreement, the customer is entitled to use the basic MINI Connected Services as laid down in the Description of the Services (Point 2.1). The basic MINI Connected Services include in particular the “Intelligent Emergency Call”, if available. Additional MINI Connected Services under the MINI Connected agreement (depending on the selected vehicle equipment) may be booked upon purchasing the vehicle, or retroactively through the MINI Connected Store.

1.4 If the customer orders a new MINI vehicle from a seller (authorized MINI dealer or MINI branch) that features necessary standard or optional equipment for a specific Service, this shall be at the same time deemed as an offer to conclude a MINI Connected agreement with MINI for the use of this Service.

- a) If the respective Service is part of the standard equipment for the new MINI vehicle, the MINI Connected agreement shall be concluded between the customer and MINI at the same time when the purchase agreement for the new MINI vehicle is concluded between the customer and the seller.
- b) If the respective Service is exclusively part of the optional equipment for the new MINI vehicle, the customer shall be bound to his/ her offer to conclude the MINI Connected agreement only from such time when the customer can no longer deselect the optional equipment ordered for the new MINI vehicle. The MINI Connected agreement shall be concluded between the customer and MINI when the Service is activated by MINI upon initial registration of the new MINI vehicle.

1.5 If the customer decides not to use the MINI Connected Services, and if the built-in SIM card in the vehicle is deactivated at the customer’s request before the new vehicle is handed over, this shall be considered a withdrawal from the MINI Connected agreement concluded as per Point 1.4.

2. Description, term and availability of the Services

2.1 The scope of the individual Services, their terms and availability are described in detail during the booking process as well as at www.mini.sk (hereinafter “Description of Services”). MINI shall specify

the costs for these Services individually, or jointly in the context of the ordering process for multiple Services.

2.2 The term of the MINI Connected agreement as per Point 1.3 is open-ended. The term for other Services booked in addition to the basic Services shall be based on the respective Description of Services. In general, a fixed-term, fee-based Service shall have a maximum term of two years and shall be automatically extended by a maximum of one additional year unless the customer terminates it with six weeks' notice to the end of the agreed term.

2.3 The Services are provided via a SIM card installed in the vehicle. Consequently, the Services are to some extent geographically limited by the reception and transmission range of the communication station operated by the respective network operator, and can particularly be impaired by atmospheric conditions, topographical circumstances, the vehicle's position, and obstacles (e.g. bridges and buildings). In addition, the provision of Services requires the mobile communication network needed for the installed SIM card to be functional and ready for operation.

2.4 Disruptions in service may result from force majeure, including strikes, lockouts and official requirements, as well as on the basis of technical or other measures, for instance as performed on systems belonging to MINI, suppliers of transit data or the network operator to ensure proper operations or to improve service (e.g. maintenance, repairs, system-related software updates, expansions). Disruptions in service may also result from short-term capacity shortfalls caused by demand peaks for the Services, or from disruptions in third-party telecommunications systems. MINI shall take all reasonable efforts to rectify such disruptions immediately or to work towards their rectification.

2.5 The customer can inform MINI Customer Service (see Point 7) about any disruptions in service.

2.6 MINI reserves the right to modify the scope of a Service if and to the extent that this modification is reasonable for the customer with regard to the total scope of the agreed Service. In the event of a further modification of the scope of a Service that can be reported to the customer in writing or via an electronic communication path (e.g. via "My MINI Connected"), the customer can extraordinarily terminate this Service within six weeks of receiving the change notification, and have it deactivated free of charge via the MINI Connected Hotline (see Point 7).

3. Using the Services

3.1 The customer may not use the Services for illegal purposes, and shall ensure that third parties do not do this either. The customer is not authorized to share the data and information received in the context of using the Services with third parties for commercial purposes, or to further process these.

3.2 The customer shall bear the costs of any misuse of the Emergency Call service.

3.3 The MINI Connected agreement between MINI and the customer, as well as the Services booked by the customer, are linked to the vehicle and cannot be transferred to another vehicle or be used in another vehicle.

4. Deactivating the Services, terminating the MINI Connected agreement

4.1 The customer can have the SIM card installed in the vehicle deactivated at any time by an authorized MINI retailer, a MINI branch or an authorized MINI repair shop. Deactivating the SIM card deactivates all of the booked MINI Connected Services, including the basic Services. Deactivation will also cause the Intelligent Emergency Call function in the vehicle to be deactivated, if available. The "Legal Emergency Call", cannot be disabled at the request of the customer.

4.2 MINI and the customer can terminate the MINI Connected agreement (to the extent that an open-ended term applies to this agreement as per 2.2) as well as any open-ended Service at any time, with six weeks' notice. Otherwise, for fixed terms, termination is possible with six weeks' notice to the

end of the term if the term would otherwise be automatically renewed, by stating the lack of will to continue the agreement.

4.3 MINI may refuse, suspend, cancel or terminate all or some services or the MINI ConnectedDrive contract as a whole in the event of the customer being or becoming subject to Sanctions (as defined in the following sentence) provided that under the Sanctions, MINI is no longer permitted to provide the respective services to the customer.

Sanctions means any applicable restrictive measures (trade, military, economic or financial sanctions, laws, or embargoes) including lists of specially designated nationals or blocked persons lists mandated, imposed or adopted by the relevant authorities (in particular the United Nations Security Council, the European Union, Her Majesty's Treasury (HMT)). To the extent the respective services have already been paid by the customer, the customer is entitled to claim an adequate refund regarding the unused/cancelled service provided that MINI has received the approval from the competent authority (to the extent required under the applicable Sanctions).

5. Sale or permanent transfer of the vehicle

5.1 The customer is not entitled to transfer its existing MINI Connected agreement with MINI to a third party without MINI's permission. This also applies in the event that the customer sells to or transfers the vehicle for a permanent use to a third party.

5.2 In the event of a sale to or transfer of the vehicle for permanent use by a third party, the customer shall ensure that all personal data saved in the vehicle have been deleted. In addition, the customer must remove the link between the vehicle and the customer's user account via "My MINI Connected."

5.3 The customer must inform the third party to whom he/she is selling or transferring the vehicle about all active and deactivated services.

5.4 In the event of a sale to or transfer of a vehicle for a for permanent use by a third party, the customer shall also have the right, in addition to the termination option as per point 4.2, to terminate a fixed-term Service with six weeks' notice. If the customer terminates a fixed-term Service before the end of the term, the price already paid for this Service shall not be refunded on a pro rata basis.

6. Cancellation right for consumers

If the customer is a consumer in the sense of Civil Code, the customer shall have a 14-day cancellation right in the event of a contract conclusion as per Point 1 as well as if individual Services are booked, if the contract was concluded as a distance contract .
