

# THE MINI CLUBMAN.

# CONFIDENT STYLING, PERFECTLY FORMED.

Sophistication is found where practicality is stylish and style is practical – as exemplified by the MINI Clubman. At first glance, it is a classic MINI with all the British charm and urban appeal of the original. At a second glance, however, the 6-door model reveals a whole host of practical features as well as an adaptive spacious interior to fit the whole family. Focus in on the details and notice the high-quality materials and unique style that raises it far above all other vehicles of its class.

A veritable all-rounder, it is agile and manoeuvrable enough to be completely at home in towns and cities. At the same time, it offers all the space and comfort you need for a truly relaxing ride on longer journeys.

# NOT JUST AN ENGINE, BUT A DRIVING FORCE.

The range of six MINI Twin Power Turbo engines for the MINI Clubman deliver all the performance you need, whatever the conditions. Leading the way are the athletic four-cylinders in the Cooper S/SD, also available with ALL4 all-wheel drive for maximum stability and supreme traction.

Its bigger size in no way detracts from the classic go-kart feel, especially given that the more dynamic driver can specify a chassis that is 10mm lower. With MINI Driving Modes, you can adapt the Clubman to the kind of drive you want at any given moment: Optional Dynamic Damper Control sets the suspension to deliver a noticeable increase in comfort when driving in MID and GREEN modes. SPORT mode takes advantage of a more dynamic suspension set-up and lets you change the steering and accelerator characteristics at the touch of a button.

## COOPER S.

Full speed ahead: The 2.0litre, four-cylinder petrol engine with 131kW\*/178hp and the 2.0litre, four-cylinder diesel engine with 140kW/190hp pack just the right punch. The front design and rear apron, the air scoop in the bonnet, the red 'S' on the radiator grille, side scuttles and right-hand split door and the tailpipes both left and right all suggest the power waiting to be unleashed on the road.

## COOPER.

Uniting dynamics and efficiency: the 1.5litre, three-cylinder petrol engine with 100kW/136hp and the 2.0litre, four-cylinder diesel engine with 110kW/150hp. Special features: a chrome tailpipe and roof and mirror caps in an optional contrasting colour.

## ONE.

The go-kart feel starts with the 1.5litre, three-cylinder petrol engine with 75kW/102hp or 1.5litre, three-cylinder diesel engine with 85kW/116hp, both featuring MINI Twin Power Turbo technology. The colour of its exterior mirror caps always corresponds to the body colour.

\* Depending on the environmental conditions, a temporary peak output is provided that may be approx. 10% above the nominal output; the duration of the peak output increases as the environmental temperature decreases (at +25°C approx. 5s, at -20°C approx. 40s).
