

THE NEW MINI 3-DOOR AND 5-DOOR HATCH.

It's easy to have fun in the city – given it's precisely what the MINI 3-door and 5-door were made for. With its signature go-kart feel, it masters even tight bends and narrow lanes effortlessly and with ultimate precision. Flawlessly adapted to urban living, the MINI style stands out for so many reasons. For example the Multitone roof, a creative take on the contrasting roof and now available for the first time straight from the factory. Or with the stylish Piano Black exterior and standard LED lights with Black high-gloss inner casing – extraordinarily, purely and 100 % MINI.

PRETTY GOOD TOGETHER.

AS POWERFUL AS YOU PLEASE.

Each MINI model has its own special strengths. But they all have one thing in common: powerful, clean and efficient MINI Twin Power Turbo technology. The 6-speed manual transmission comes as standard and enables rapid gear changes. The 7-speed double-clutch transmission notches it up a gear, and is optionally available as a sports transmission for the Cooper S.

The new adaptive chassis in the Cooper and Cooper S delivers the perfect balance between comfort and athleticism. MINI Driving Modes MID and GREEN offer efficient and economical vehicle settings – and in SPORT mode you can change the steering and accelerator characteristics at the touch of a button.

COOPER S.

Full speed ahead: The 2.0litre, four-cylinder petrol engine with 131 kW*/178hp delivers the perfect performance whatever the lay of the land. Continuing the theme are its athletic appearance with air inlets in the bumper and bonnet, the rear apron with diffuser insert, central double tailpipes and model-specific rear spoiler.

COOPER.

The 1.5litre, three-cylinder petrol engine in the Cooper delivers 100kW/136 hp – the perfect combination of dynamics and efficiency. Special characteristics: Roof and exterior mirror caps in contrasting colours and bonnet stripes are available, as well as a tailgate handle in high-gloss Black, 15" light alloy wheels and a tailpipe trim.

ONE.

Experience the full force of that signature MINI go-kart feel even with the 1.5litre, three-cylinder petrol engine and 55kW/75hp in the One First or 75kW/102hp in the One. Both models are recognisable from the roof and exterior mirror caps in body colour, the tailgate handle in Black matt and the left-hand tailpipe without trim.

*Depending on the environmental conditions, a temporary peak output is provided that may be approx. 10% above the nominal output; the duration of the peak output increases as the environmental temperature decreases (at +25 °C approx. 5 s, at -20 °C approx. 40 s).

WHICH LOOK WILL BE YOURS?

When it comes to equipment, the MINI is clear in its approach: many options, one individual style. The first step to fine-tuning your own personal style is to choose from the trim options Classic, John Cooper Works or MINI Yours. These can then be customised with feature-rich packages to suit your specific requirements. The third step is to select individual options to create your own, custom-designed vehicle.

Some of the equipment options offered by the trims are shown here in three preconfigured examples – each modelled by the 3-door MINI Cooper S. Find out more from your MINI Partner about the trim options available – or visit the MINI website.

Interior surfaces complete the interior design. A cockpit trim in Hazy Grey is already on board as standard for the One and Cooper – it comes in Piano Black together with the door trims as part of the Classic and JCW trims. A signature feature of the MINI Yours trim is a cockpit trim in Aluminium with door sill finishers in Mystic Brown. Silver Chequered colouring with door sill finishers in Piano Black is available as an option with any trim.
